

Dynamic Sign Acknowledgement

Property Address: _____

By signing below you are certifying the dynamic signage meets the following performance standards:

1. The display sign shall not change more than once every twenty (20) minutes.
2. The display sign will comply with the minimum text size requirements based on the adjoining roadway's speed limit:

Applicable (select one)	Speed Limit of Abutting Street (mph)	Minimum Text Size (in)
<input type="checkbox"/>	25-34	7
<input type="checkbox"/>	35-44	9
<input type="checkbox"/>	45-54	11
<input type="checkbox"/>	55+	15

3. The display sign shall not include motion, scrolling, flashing, video displays or other effects.
4. The display must be static and the transition from one static display to another must be instantaneous without special effects, such as dissolving, spinning or fading.
5. The display image or message must be self-contained, without continuation in content to the next image or message.
6. The display sign shall not change in color or color intensity in any manner. Each line of text in any direction must be uniform in color.
7. The brightness of the sign shall not exceed 5,000 NITS after sunrise and before sunset or 500 NITS after sunset and before sunrise each day.
8. The sign shall include certification from the sign manufacturer that the sign has been preset to conform to the luminance levels noted above and these settings are protected from end users' manipulation by password protected software.
9. The display must also be equipped with a means to immediately discontinue the display if it malfunctions, and the sign owner must immediately stop the electronic display when notified by the City that it is not complying with the regulations of the Development Code. The display sign must remain inoperable until such time that the owner demonstrates to the City that the device is in satisfactory working condition and conforms to the regulations of this article.
